

CNC's	CNC 8025 T CNC Control	\$9,600
--------------	-------------------------------	----------------

Item Number: **262-1000**

CNC 8025 T, 8025TG, CNC control s: The Fagor 8025/8030 Series of controls have been performing successfully, and reliably in the industrial market place over the past 10 years. Every feature that the control is capable of performing is available from the first day you own the control. You will not need to be concerned with software updates because this product has already been performing for years with the most sophisticated capabilities. Some of the standard features are spindle orientation, geometric calculations, graphic programming assistance, background editing, parametric subroutines, standard canned cycles, user defined canned cycles, parametric interface and a two year warranty. This control is ideal where simplicity, reliability, and longevity are the primary objectives.

Fagor 8025 Options	Fagor 8025 upgrade (T) to (TG)	\$1,250
---------------------------	---------------------------------------	----------------

Item Number: **262-3001**

Upgrade from 8025 T to 8025 TG includes graphics card and chips providing dynamic tool path graphics with zoom in/out capability.

Fagor 8025 Options	8025 Built -In PLC Software	\$895
---------------------------	------------------------------------	--------------

Item Number: **262-4001**

Total of 41 programmable inputs and 24 outputs. This has become a standard feature with all machines built by CMS since the beginning of 2001. With this feature automated requirements such as loaders, and bar feeders can be easily addressed.

Fagor 8025 Options	8025 Intelligent Floppy Disk Reader	\$1,995
---------------------------	--	----------------

Item Number: **262-4002**

A floppy drive system with its own processor which allows it to upload and download programs and drip feed data to the control.

Fagor DNC 8025	DNC 30 Software Disks	\$480
-----------------------	------------------------------	--------------

Item Number: **262-4003**

The DNC program has the capacity for:
 Infinite length execution (drip feed).
 Receiving digitized program data while digitizing remote control of CNC.
 CNC monitoring of program status.
 CNC editing.
 Part program uploading and downloading.
 PLC program uploading and downloading.
 Parameter and tables uploading and downloading.

Fagor 8025 Options

Fagor 100p Handwheel

\$725

Item Number: **262-4004**

Fagor 100P Handwheel for Fagor 8025 CNC controls: This is a industrial hand wheel on a 3 meter cable built by Fagor Automation to allow the operator easier set ups and tool off-sets from the mobility of the device.
