-------------------------------	---	--------------

Item Number: **323-2032**

MicroCentric large opening fixed part stop. Required to create stop for part on large collet chuck.

Spindle 5C	5C Ejector Assembly Sub Spindle	\$695
-------------------	--	--------------

Item Number: **323-2050**

5C Ejector Assembly Sub Spindle: This unit is a cartridge with a spring plunger which will thread into the ID thread in a 5C collet. The ejector has a 2.00" stroke and incorporates a seal to keep contaminants out of the plunger. The plunger has an M5 thread onto which ejector tips can be mounted. Also note that the rear of the plunger is a hex rod which will prevent the plunger from rotating as ejector tips are screwed onto it.
